

When should you call 911?

If you need the Police, call 911

If you need a Firefighter, call 911

If you need an Ambulance, call 911

NEVER call 911 as a joke

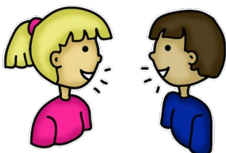

Only call 911 when it's an emergency

Don't panic or freak out - stay calm

Push 9 - 1 - 1 on the phone

Use your words! The dispatcher can't see you shake your head or point so you need to talk
